*Better Quality....Better Life....*

CRAFTED FOR TIMELESS INTERIOR EXPRESSIONS

# ABOUT US

Wollam Laminates is built on the belief that surfaces should do more than cover spaces — they should define them. Every collection is crafted to combine refined aesthetics with dependable performance, creating laminates that feel modern, durable, and timeless.

Driven by precision manufacturing and evolving design trends, we create textures, finishes, and patterns that seamlessly blend into residential, commercial, and contemporary interiors. From subtle elegance to bold statements, each surface is designed to elevate everyday environments.

Our focus remains simple — exceptional quality, thoughtful craftsmanship, and designs that inspire creativity without compromise.

## WHAT WE DON'T COMPROMISE

- |                         |  |                   |  |                  |  |                                 |

Key Features

BALANCE OF TEXTURE, TONE, STRENGTH.

ABRASION  
RESISTANT

Our laminates are designed to withstand daily wear and tear, ensuring lasting beauty and performance even in the most demanding environments.

SCRATCH  
RESISTANT

Our laminates are engineered to resist scratches, maintaining their pristine appearance and durability even in high-use areas.

ANTI  
BACTERIAL

Designed with advanced antibacterial technology, these surfaces promote a healthier environment by inhibiting the growth of harmful bacteria.

FADE  
RESISTANT

Engineered to retain their vibrant colors, these surfaces ensure long-lasting beauty without fading, even under direct sunlight.

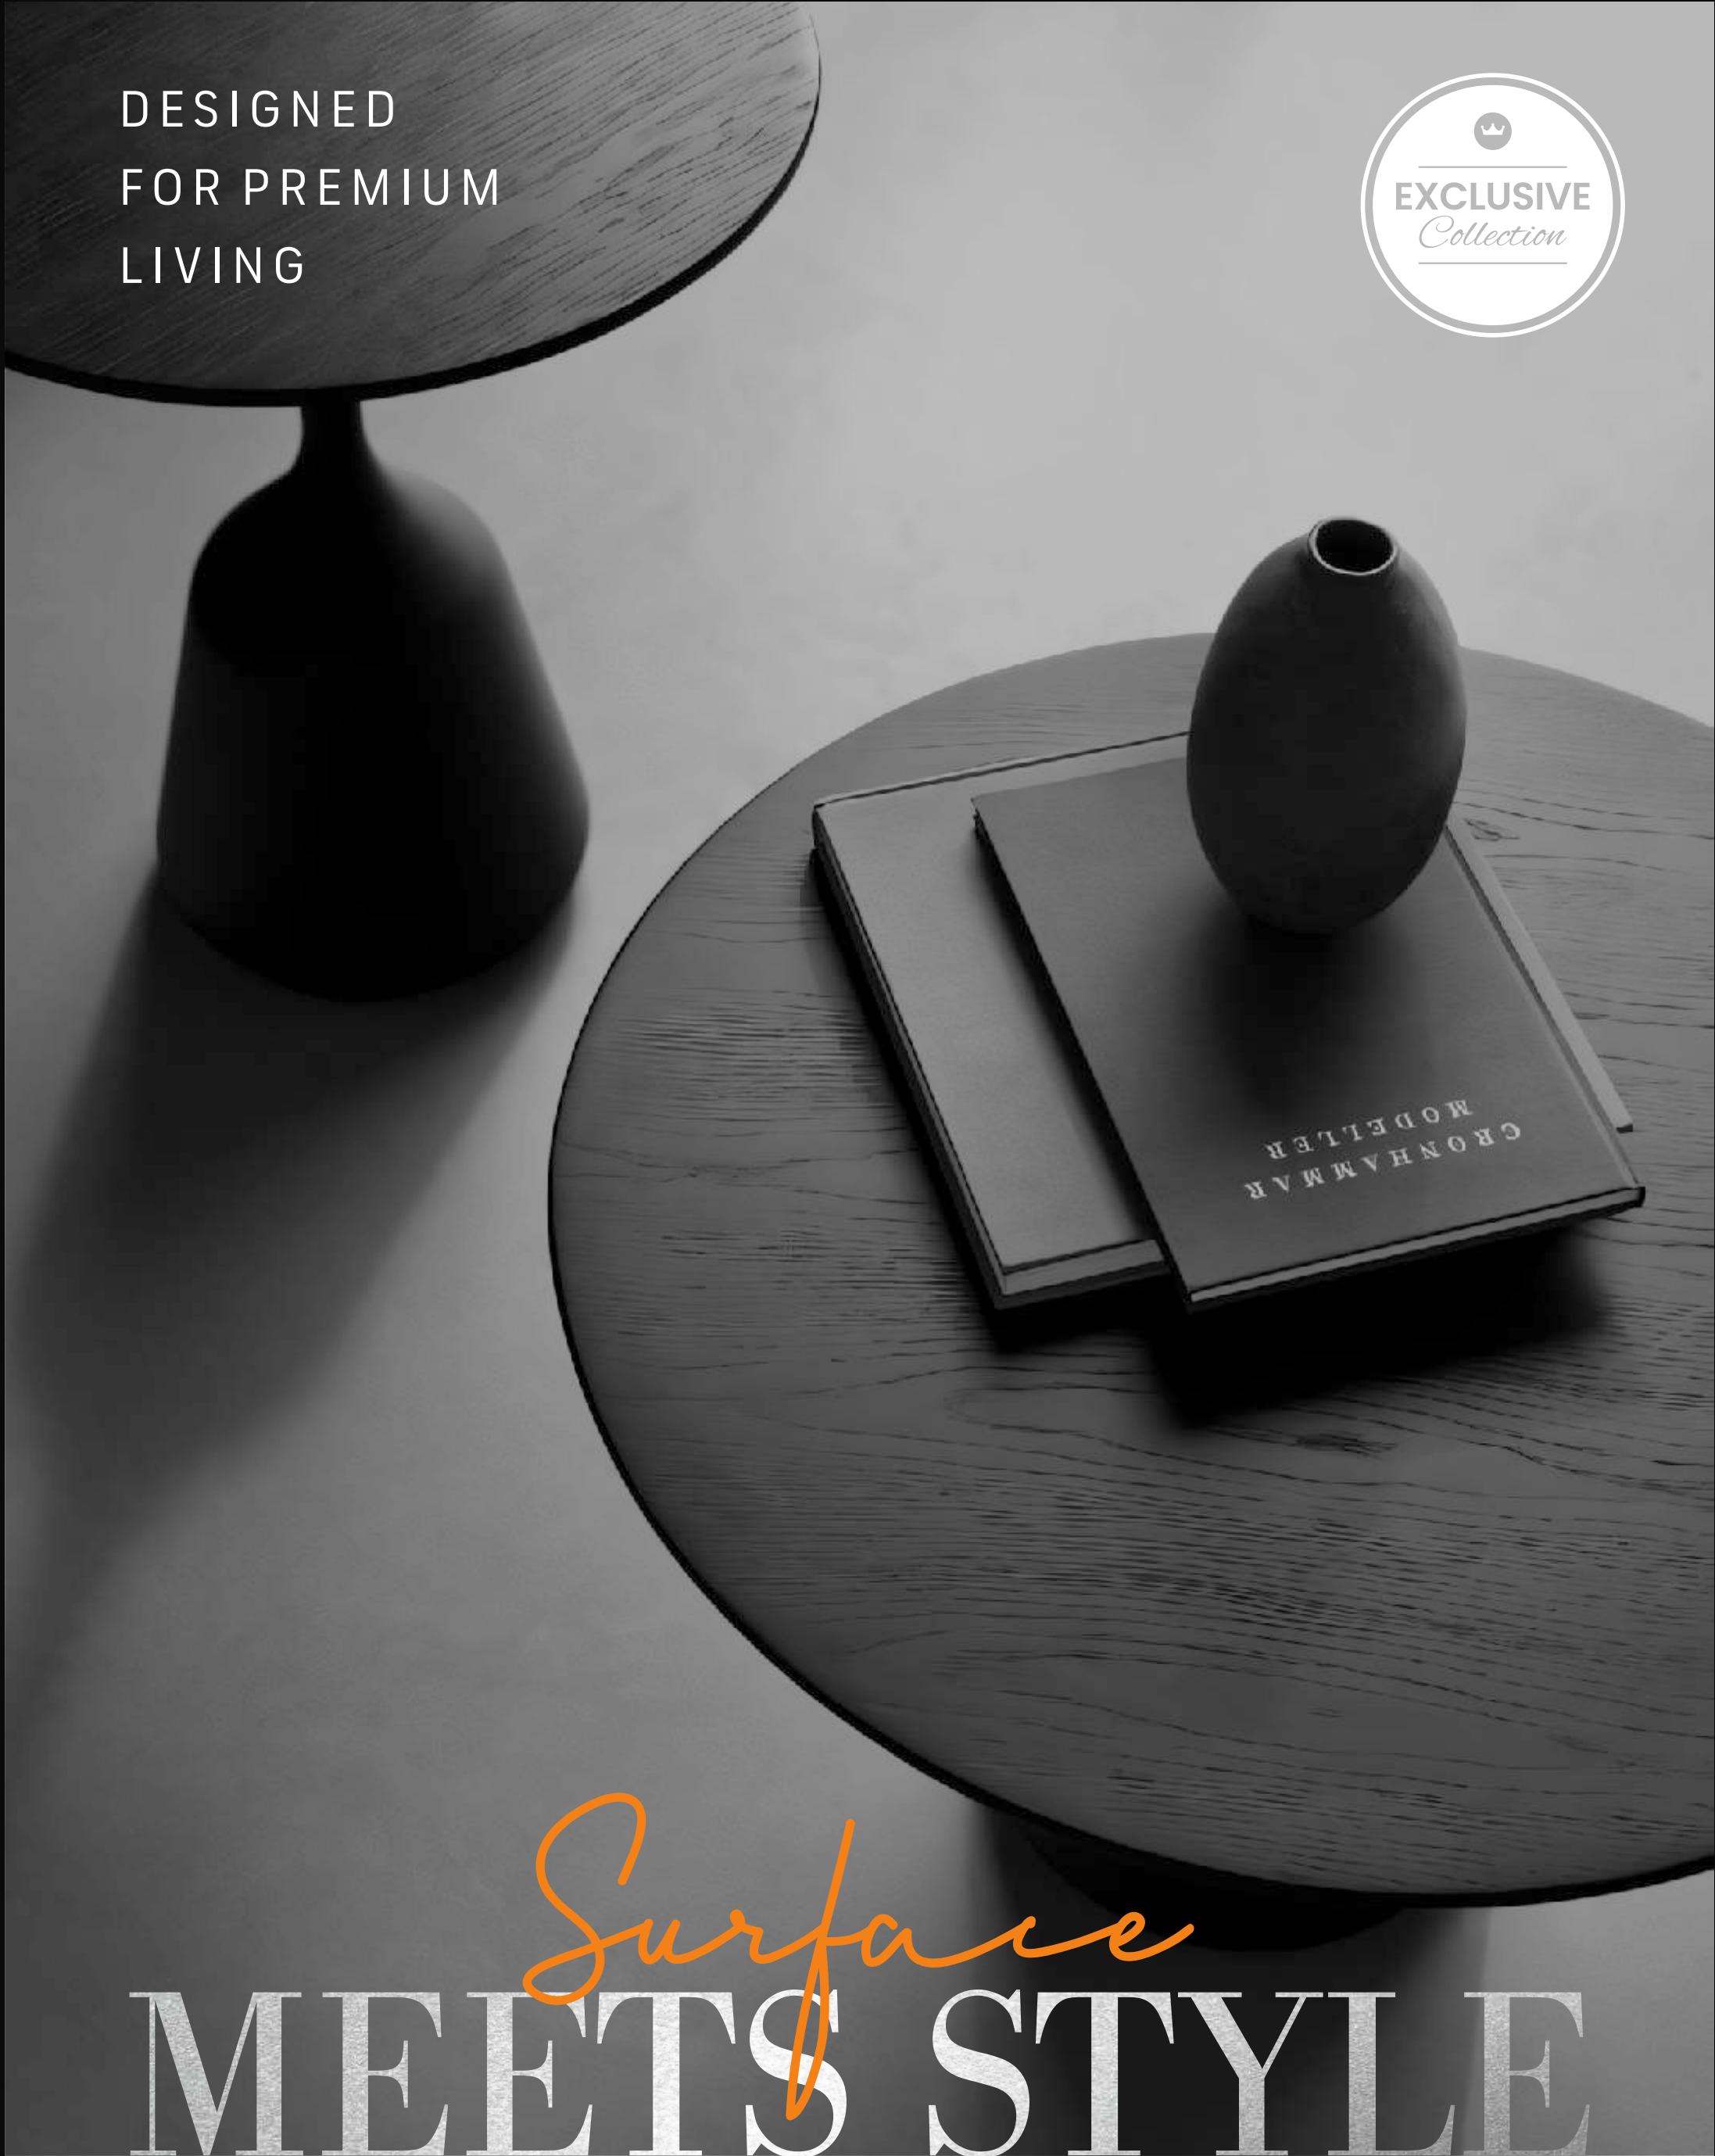

ALL WEATHER  
RESISTANT

These surfaces are built to withstand all weather conditions, ensuring durability and performance regardless of the environment.

MOISTURE  
RESISTANT

Designed to repel moisture, these surfaces provide enhanced durability and protection, making them ideal for humid and wet environments.

DESIGNED  
FOR PREMIUM  
LIVING

Surface

| Dimensional Stability [Machine Direction] | 0.60%[Max]            | 0.5%[Max]         | YES    |
| Dimensional Stability [Cross Direction]   | 1.10%[Max]            | 0.95%[Max]        | YES    |
| Wear Resistance                           | 400 Cycles [Min]      | >400 Cycles [Min] | YES    |

Grades : General and fire retardant [FR]  
Types : Standard, post forming, compact, cabinet liners, backer  
Size : 2440 mm x 1220 mm [8'x4']  
Thickness : 1mm (±10%)

Care & Maintenance : Cleaning should be carried out with a soft moist cloth and warm soap solution.  
Do not use detergents containing abrasive particle or excess soda.

- Highlight:
- Design from genuine imported base paper.
  - Manufactured using best quality kraft paper.
  - Use of best chemical raw materials for better flexibility & durability.

Disclaimer: Customers are advised to reconfirm selected laminate when placing orders as our liability does not include claims arising from sample chip pasting error. Samples presented are indicative of color, pattern and surface finish but not of actual thicknesses. All metallic patterns series recommended for vertical application only.  
Limited Warranty: Company warrants that its products are reasonably free from manufacturing defects. The products when properly used, will comply, with normal deviation, related manufacturing specifications. This warranty shall be limited only to the original buyer for a period of care. It is recommended that the products must be inspected prior to installation and our liability will be limited to the extent of the cost of the products only. Our products are used for various applications without the possibility of control over the manufacturing of the finished products. The Company does not assume obligations or liabilities arising from the furnishing, sale, installation or repair, use or subsequent sale of any product, to any person or entity.

Do not use nail and hammer while cutting such Corner, Grew, Angle, and Designs.  
Use only drill while cutting such Corner, Grew, Angle and Designs.

APPLICATIONS

Do not use active acidic chemicals or sharp / wired brushes for cleaning the HPL Laminates surfaces

Avoid Direct sunlight / continuous light form the HPL Sheet These may cause to color fading due to UV Rays

Extra care required in vertical pasting of Laminated sheet there is possibility of bubbles dueto lack of uniform pressure

Cracking at corner & around cuts may be caused by improper conditioning, improper bonding, poor planning, avoid all these to prevent cracking at corners.

NO CLAIM WILL BE ENTERTAINED FOR AIR BUBBLES

NO CLAIM WILL BE ENTERTAINED FOR CRACKING ARISING OUR OF ROOVE CURRYING OR L. SHAPE
